RE: Village of Sauk Village
NPDES Permit MS4 Annual Report – **Reporting Cycle 2014-2015**
Permit No. ILR40 - 0441

Dear Sir/Madam:

Enclosed please find the following items in regard to the NPDES Permit for Storm Water Discharges from Municipal Separate Storm Sewer Systems (MS4) for the Village of Sauk Village:

- MS4 Annual Facility Inspection Report for 2014-2015
- Summary and Schedule of Proposed Best Management Practices
- Attachment 1 (summarizing status of Minimum Control Measures)
- Various Attachments supporting Minimum Control Measures

This documentation has also been emailed to epa.ms4annualinsp@illinois.gov. If you have any questions, please call me at (708) 210-5678.

Very truly yours,

ROBINSON ENGINEERING, LTD.

A handwritten signature in blue ink that reads "Jonathan J. Dykstra".

Division of Water Pollution Control ANNUAL FACILITY INSPECTION REPORT

for NPDES Permit for Storm Water Discharges from Separate Storm Sewer Systems (MS4)

This fillable form may be completed online, a copy saved locally, printed and signed before it is submitted to the Compliance Assurance Section at the above address. Complete each section of this report.

Report Period: From March, 2014 To March, 2015

Permit No. ILR40 0441

MS4 OPERATOR INFORMATION: (As it appears on the current permit)

Name: Village of Sauk Village Mailing Address 1: 21701 Torrence Avenue
Mailing Address 2: _____ County: Cook
City: Sauk Village State: IL Zip: 60411 Telephone: 708-758-3330
Contact Person: Kevin Weller Email Address: _____
(Person responsible for Annual Report)

Name(s) of governmental entity(ies) in which MS4 is located: (As it appears on the current permit)

Cook County

THE FOLLOWING ITEMS MUST BE ADDRESSED.

- A. Changes to best management practices (check appropriate BMP change(s) and attach information regarding change(s) to BMP and measurable goals.)
- | | | | |
|--|--------------------------|---|--------------------------|
| 1. Public Education and Outreach | <input type="checkbox"/> | 4. Construction Site Runoff Control | <input type="checkbox"/> |
| 2. Public Participation/Involvement | <input type="checkbox"/> | 5. Post-Construction Runoff Control | <input type="checkbox"/> |
| 3. Illicit Discharge Detection & Elimination | <input type="checkbox"/> | 6. Pollution Prevention/Good Housekeeping | <input type="checkbox"/> |
- B. Attach the status of compliance with permit conditions, an assessment of the appropriateness of your identified best management practices and progress towards achieving the statutory goal of reducing the discharge of pollutants to the MEP, and your identified measurable goals for each of the minimum control measures.
- C. Attach results of information collected and analyzed, including monitoring data, if any during the reporting period.
- D. Attach a summary of the storm water activities you plan to undertake during the next reporting cycle (including an implementation schedule.)
- E. Attach notice that you are relying on another government entity to satisfy some of your permit obligations (if applicable).
- F. Attach a list of construction projects that your entity has paid for during the reporting period.

Any person who knowingly makes a false, fictitious, or fraudulent material statement, orally or in writing, to the Illinois EPA commits a Class 4 felony. A second or subsequent offense after conviction is a Class 3 felony. (415 ILCS 5/44(h))

Village of Sauk Village
NPDES Permit No. ILR40 0441
Annual Facility Inspection Report - Supplemental Information
March 2014 to March 2015
May 5, 2015

Item A: Description of Changes to BMPs

No changes in Village BMPs have been made during this cycle.

**Item B: Status of compliance with permit conditions
and assessment of minimum control measures**

The Village believes that the BMPs completed within the reporting period are appropriate for the permit conditions. The status of each BMP is as follows:

Public Education and Outreach

1. **A1: Distributed Paper Material (Brochure)**

The Flyer/Brochure titled "When Cars Leak Fluids, Our Water is Affected" was distributed by the Village and posted as a link on the website throughout the year (sample enclosed).

2. **A1: Distributed Paper Material (Newsletters)**

The Village's Sauk Talk Newsletter has been used to reach out to residents and businesses about a variety of topics. A sample newsletter is included (September 2014), highlighting the Beautification Committee and keeping pollutants out of streams. Photos are also provided from this Public Participation event.

3. **A6: Other Public Education (Website)**

The Village Website was used to post information for Public Works and other stormwater related items (samples enclosed).

4. **A6: Other Public Education (Stenciling)**

Stenciling of storm inlets and catch basins is an ongoing program, but no stenciling was performed during the cycle. Stenciling is again planned for the next cycle.

Public Participation and Involvement

5. **B4: Public Hearing**

The Village held its annual informational Public Hearing on January 27, 2015. Copies of the minutes and agenda are enclosed.

6. **B7: Other Public Involvement (Beautification Committee; Cleanup Week)**

The Village held its annual Cleanup day on May 17, 2014. All residents can participate by working in various ways at multiple site locations within the Village. It is planned again for May 16, 2015 (see attached calendar). Also, the Beautification Committee holds various meetings throughout the year.

Illicit Discharge Detection and Elimination

7. **C1: Storm Sewer Map Preparation**

The Village has a Storm Sewer Map on which the outfalls are numbered and storm sewer sizes are included with lengths to scale. The map was not updated during the cycle, but is in need of updating within one area of development. The update is scheduled for the near future.

8. **C2: Regulatory Control Program (Ordinance)**

The Village has an ordinance (Section 51) related to Illicit Discharge Detection and Elimination, and also relies on a similar ordinance available from the Metropolitan Water Reclamation District of Greater Chicago (MWRD) for enforcement.

9. **C7: Visual Dry Weather Screening**

The Village was unable to conduct dry weather Outfall Inspections of its outfalls during the reporting cycle due to staff shortages from economic downsizing.

10. **C10: Other Illicit Discharge Controls (Visual Monitoring Inspections)**

This BMP is currently not in the Village's NOI. It is being considered for inclusion. Visual Monitoring Inspections at upstream and downstream locations were not performed during the reporting due to staff shortages.

Construction Site Runoff Control

11. **D1: Regulatory Control Program (Ordinance)**

The Village ordinance Division 3 – Sections 14-84 through 14-90 regulate Erosion and Sediment Control in runoff from construction sites. The Village continues to enforce this ordinance and other development ordinances through the plan review process. The Village ordinances are posted on the website. There have been no changes to the codes during this cycle. No immediate changes are planned. Also, the MWRD's Watershed Management Ordinance (WMO) which became effective on May 1, 2014, is used to enforce soil erosion and sediment control requirements with development.

12. **D2: Erosion and Sediment Control BMPs**

Erosion and Sediment Control BMPs are required under the current ordinance. These requirements are enforced through the plan review process.

13. D4: Site Plan Review Procedures

Development projects are reviewed under local and District ordinances by Village Staff and engineering consultants, especially regarding stormwater and erosion and sediment control measures. Projects over one acre are required to obtain a Notice of Intent prior to construction. A SWPPP is required with plan sets. Ordinances are posted on the Village's website. During the past cycle there has been no new development.

14. D6: Site Inspection/Enforcement Procedures

Weekly inspection reports are required from developers of active projects. There has been no development during the reporting cycle.

Post-Construction Runoff Control

15. E2: Regulatory Control Program (Ordinance)

The Village ordinance Section 82-135 regulates items related to post construction runoff and is applied in conjunction with Division 3 to control soil erosion and sediment control in runoff from construction sites. The Village continues to enforce this ordinance and other development ordinances through the plan review process. The Village ordinances are posted on the website. There have been no changes to the codes during this cycle. Also, the MWRD's Watershed Management Ordinance (WMO) which became effective on May 1, 2014, is used to enforce soil erosion and sediment control requirements with development.

16. E3: Long Term O&M Procedures

These are required and reviewed where applicable during the site plan review process.

17. E4: Pre-Construction Review of BMP Designs

The ordinance requirements are enforced during the site plan review stage of a development. The site plan reviews include a review of the BMP designs.

18. E5: Site Inspections During Construction

Weekly inspection reports are required from developers of active projects. Periodic or surprise audit inspections are conducted by the Village or its consultant as needed. During the past cycle there has been no new development.

19. E6: Post-Construction Inspections

Final inspections of construction sites are conducted in accordance with Section 82-135 of the Village code. Also, Stormwater management systems are inspected during the year depending on staff availability. Inspected storm sewers and structures that are found to be in need of maintenance are cleaned, vacuumed, or jetted as needed.

Pollution Prevention and Good Housekeeping

20. F1: Employee Training Program

The goal is to conduct at least one training session per reporting cycle. The Public Works staff typically discusses proper procedures for snow plowing, salt spreading, safety procedures, and stormwater issues. The Village conducted at least one training session on typical public works items.

21. F2: Inspection and Maintenance Program

Routine maintenance of Village streets, storm sewer, ditches, and stormwater facilities is part of the Public Works responsibilities. This includes sweeping, vacuuming, jetting, repair, debris and branch and leaf collection, etc.

- a. Street-sweeping was performed in April through October of the reporting period. A schedule is typically posted on the Village website.
- b. Catch Basins are cleaned as needed during the reporting period. The Village cleaned approximately 20% of its catch basins during the reporting cycle.
- c. Storm Sewers were inspected and cleaned on an as needed basis during the reporting cycle.

Stenciling of storm inlets and catch basins was not done this past cycle, but will continue during the next reporting cycle.

22. F3: Municipal Operations Storm Water Control

The Village needs to develop their program for this BMP.

23. F4: Municipal Operations Waste Disposal

The Village needs to develop their program for this BMP.

24. F5: Flood Management/Assessment Guidelines

The Village code includes Flood Regulations in Chapter 152 which enforces floodplain and flood hazard regulations for any development in or near to floodplains. The Village has one development site (Marko Transport) that is not in compliance with FEMA requirements and it has pursued the property owner to no avail.

Item C: Results of information collected and analyzed, monitoring data (if any).

Since the Village deferred its outfall inspections, it also did not perform any visual Monitoring Inspections at upstream and downstream locations. No chemical samples were taken.

Item D: Summary of stormwater activities you plan to undertake during the next reporting cycle (and implementation schedule).

See the attached Summary that is numbered to correspond with the original Notice of Intent.

Item E: Notice that you are relying on another governmental entity to satisfy some of your permit obligations (if applicable).

Not applicable. The Village of Sauk Village does not rely on another governmental entity to satisfy NPDES permit obligations at this time.

Item F: List of construction projects that your entity has paid for during the reporting period.

The following is a list of contracts that the Village let and constructed during this reporting period:

- None this reporting period.

Sample Documentation for Minimum Control Measures

The remaining sheets in this report include some available documentation for various Best Management Practices discussed under Item B.

When Cars Leak Fluids, Our Water Is Affected

How serious is an oil leak?

- It only takes one gallon of used motor oil to pollute a million gallons of fresh water. That's an entire year's supply of drinking water for 50 people.
- If you have to add a quart of oil a month to replace that which has leaked, in four months you will have left enough contamination on the ground to pollute a million gallons of fresh water.
- If your neighbor dumps his used oil down the drain after changing it himself, he has done the equivalent of ruining a year's supply of drinking water for 50 of your friends and relatives.

What is the problem?

- The current No. 1 water pollution problem comes from nonpoint source pollution.
- Nonpoint source pollution means the pollutants come from several sources instead on one discharge point.
- Nonpoint pollution occurs away from water ways; therefore, many people do not realize they are contributing to water pollution.
- Cars leak fluid such as oil or antifreeze on the pavement.
- Property owners do not follow directions and put too much fertilizer on their lawns.
- People wash their cars in their driveways or on the street.
- Pet owners do not pick up and properly dispose of their pets' waste.
- The rainwater will wash the pollutants into storm sewers.
- The pollution will be carried – untreated – to the nearest body of water.

What can I do?

- Check your car or truck for drips and oil leak regularly and fix them properly.
- Keep your vehicle tuned to reduce oil use.
- Use ground cloths or dip pans under your vehicle if you have leaks or are doing engine work.
- Clean up spills immediately (you can use kitty litter or sand to soak up the liquid) and properly dispose of cleanup materials.
- Collect all used oil in containers with tight-fitting lids, such as old plastic jugs.
- Do not mix waste oil with gasoline, solvents or other engine fluids. This contaminates the oil, which otherwise may be reused. Also, mixing may form a more hazardous chemical.
- Never dump motor oil, antifreeze, transmission fluid or other engine fluids into road gutters, down the storm drain or catch basin, on the ground or into a ditch.
- Recycle used motor oil. The electricity expended to retrieve one gallon of virgin oil from the ground is enough to run the average household for almost 24 hours.
- Many auto supply stores, car care centers and gas station will accept used oil and send it to an oil recycler free of charge.

Where can I get more information?

For more information on places you can take your used motor oil for recycling, contact your local service station or hazardous waste collection center.

Recycling at Home

Compact fluorescent lamps (CFLs) contain a small amount of mercury, about 3-4 milligrams each, sealed within the glass tubing. As with many household items such as paints, cleaners, and pesticides, CFLs should be handled properly and disposed of according to state requirements. EPA encourages consumers to recycle their spent CFLs to protect human health and avoid unsafe releases to the environment.

Increasingly, communities, neighborhoods, and even some retailers are offering CFL collection opportunities. For more details, including local recycling locations and contact information for recycling in your area, visit www.earth911.com or www.epa.gov/bulbre recycling and click on "Where You Live."

State Requirements

Requirements for CFL recycling vary by state. Some states require recycling mercury-containing light bulbs after they burn out. For more information about state-specific requirements, please contact your state or local environmental regulatory agency.

Actions You Can Take to Prevent Broken Compact Fluorescent Light Bulbs

Fluorescent bulbs are made of glass and can break if dropped or roughly handled. To avoid breaking a bulb, follow these general practices:

- Always switch off and allow a working CFL bulb to cool before handling.
- Always handle CFL bulbs carefully to avoid breakage.
- If possible, screw/unscrew the CFL by holding the plastic or ceramic base, not the glass tubing.
- Gently screw in the CFL until snug. Do not over-tighten.
- Never forcefully twist the glass tubing.
- Do not install CFLs in table lamps and floor lamps that can be easily knocked over, in unprotected light fixtures, or in lamps that are incompatible with the spiral or folded shape of many CFLs.
- Do not use CFL bulbs in locations where they can easily be broken, such as play spaces.
- Use CFL bulbs that have a glass or plastic cover over the spiral or folded glass tube, if available. These types of bulbs look more like incandescent bulbs and may be more durable if dropped.
- Consider using a drop cloth (e.g., plastic sheet or beach towel) when changing a fluorescent light bulb in case a breakage should occur. The drop cloth will help prevent mercury contamination of nearby surfaces and can be bundled with the bulb debris for disposal.

Don't be left in the dark.

Safely clean up and recycle CFLs.

Sauk Talk

Mayor's Corner

Mayor David Hanks

Thanks to Trustees Myers, Poskin, Washington and Williams who supported making it possible for Advance Auto to open this month in Sauk Plaza. Advance Auto brings more jobs to Sauk Village and will occupy five store fronts that have been vacant for years. The Grand Opening is scheduled to take place on Friday, September 26th from 10 am—noon.

Work continues on the water treatment project. You may have noticed the permanent air strippers have been delivered to the Pumping Station.

Thanks to the Sauk Village Currency Exchange and Debbie for the many years of serving the residents. You will be missed. Best wishes on your retirement.

News from the Village Clerk

Debbie Williams

Voter registration is available at the Village Hall Monday through Friday from 8am- 5pm. The last day to register to vote for the November 4, 2014 Gubernatorial Election is October 7, 2014. If you have recently moved to Sauk Village or moved from one Sauk Village address to another you must update your registration.

Voter qualifications-

To register to vote, you must be:
A U.S. citizen
At least 18 years old by the general election

A resident of your precinct at least 30 days prior to Election Day

You also must display two pieces of identification. Neither needs to be a photo ID, but one must include your current address. Acceptable forms of ID include:

- Illinois driver's license
- Illinois state ID
- Employee or student ID
- Credit card
- Social security card
- Birth certificate
- Utility bill in applicant's name
- Mail postmarked to the applicant
- Valid U.S. passport

- Public aid ID card
 - Lease or rental contract
- There will be three open Trustees seats in the April 7, 2015 Consolidated Election. Please refer to the information below if you are interested in being a Sauk Village Trustee candidate.

For the complete Election Calendar and Candidates Guide please visit the Illinois State Board of Elections Website:

Beautification Committee

Linda Todd

The Beautification Committee and volunteers took our village by storm and delivered 103 Hootsie Awards for 2014. 100 were for our deserving residents and 3 went to business (Dunkin Donuts, McDonalds and Win Pak). It was a thrill to see the happy and jubilant residents when they received their award. We are so proud of the work they have done to make our neighborhoods and village more beautiful. We drove up and down every street in Sauk Village and were happy to find so many beautifully kept homes in every neighborhood, so many that we also created a thank you card to be given to those that did not quite meet the criteria for the Hootsie, but are still deserving of recognition for their work. While the Hootsie's have been delivered, the cards will be delivered soon. Thank you to all our deserving residents your pride is showing.

Sauk Village would like to thank the Beautification Committee and their volunteers, particularly Christopher Witt and James Samuels, who worked tirelessly to beautify our community.

Sauk Talk is Produced by volunteers of the Public Relations Committee of Sauk Village, Rosie Williams Trustee/Composer and Staff Members Nanette Wargo and Debbie Williams. With special appreciation for technical support provided by Colleen Baughman. Suggestions should be directed to the Village Hall at 708-758-3330 or emailed to sauktalk@saukvilleage.org.

SAUK VILLAGE COMMUNITY CLEAN UP

Saturday, May 17, 2014

8 am - 12 noon

The Beautification Committee of Sauk Village is looking for volunteers to gather behind Village Hall (21801 Torrence Ave.) to form teams and select locations for our Spring clean-up at 8 am sharp. Village buildings, public rights of ways, and access roads are our focus for the day.

If you are unable to attend this event but would like to form a neighborhood Adopt-A-Block clean up group, those efforts would be welcomed and appreciated too! Take pictures and send them to jmorden@saukvillage.org.

Light refreshments will be available at the meet site.

Contact Trustee Jeff Morden at (708)753-5129 or jmorden@saukvillage.org.

Reminder: Electronics are not picked up with regular garbage.
But for **ONE DAY ONLY** ~ May 17th ~ electronics can be taken to Village Hall
21801 Torrence Avenue (east end of the parking lot)
Any other day, take electronics to Lynwood Recycling
21540 E. Lincoln Hwy Lynwood, IL 60411 (708)757-7300

Street Sweeping

The Street Sweeping schedule will be as follows:

Street Sweeping will be held the third week of every month from May until November and will be on the days of your garbage pickup.

Sweeping the month of November will follow our leaf pickup program.

If additional sweeping are necessary, notification will be posted on the Marquee located on Sauk Trail at the corner of Cornell Avenue.

Ordinance prohibits parking on the streets between the hours of 7:00 A.M. and 3:30 P.M.during the day of your scheduled garbage pick up.

Thanks for your help keeping Sauk Village clean

SPECIAL MEETING
OF THE CORPORATE AUTHORITIES
VILLAGE OF SAUK VILLAGE

Tuesday, January 27, 2015
6:00 p.m.
Sauk Village Municipal Center
21801 Torrence Avenue
Sauk Village, Illinois 60411
(708) 758-3330

AGENDA

- 1. Roll Call**
- 2. PUBLIC HEARING AGENDA**
NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES)
- 3. Public Comment**
- 4. Adjournment**

The special meeting was called by Mayor David Hanks of the Village of Sauk Village.
Notice was issued in accordance with the Illinois Open Meetings Act.
NOTE: Anyone planning to attend the meeting who has need of special assistance under the Americans with Disabilities Act (ADA) is asked to contact the Village Clerk's office at (708) 758-3330. Staff will be pleased to make the necessary arrangements.

MINUTES OF THE **SPECIAL MEETING** OF THE MAYOR AND BOARD OF TRUSTEES OF THE VILLAGE OF SAUK VILLAGE, HELD IN THE SAUK VILLAGE MUNICIPAL CENTER **JANUARY 27, 2015.**

**PUBLIC HEARING AGENDA
NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES)**

1. Roll Call

Mayor Pro Tem Williams called the meeting to order at 6:00 pm.

On roll call:

Present: Trustees Burgess, Myers, Poskin, Washington and Williams

Absent: Mayor Hanks and Trustee Morden

2. Review National Pollutant Discharge Elimination System (NPDES)- Village Engineer Jim Czarnik

The Illinois Environmental Protection Agency (IEPA) requires the Village to conduct a public meeting every year to inform the public about storm water issues and report on the Village's compliance status with the storm water permit.

Presented by Village Engineer Jim Czarnik- Robinson Engineering

**NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES)
PUBLIC HEARING AGENDA**

Required by Illinois Environmental Protection Agency (IEPA) in accord with Village's Notice-of-Intent (NOI) for the Illinois General Permit ILR 40 (permit is performed on a 5-year cycle; next NOI due by 10/1/18 for new permit cycle beginning in 2019)

- I. Introduction and General Description of NPDES (National Pollutant Discharge Elimination System) permit for MS4 (Municipal Separate Storm Sewer System) communities

GOAL – Eliminate pollutants from entering storm sewer system/detention ponds and depositing into rivers, lakes, creeks, which are the ultimate outlet points. For Sauk Village, these would be the Lansing Drainage Ditch and Deer Creek.

- II. **Six Required Minimum Control Measures (MCMs)**

1) Public Education and Outreach

- a) What the Village has done to inform the public is:
 1. The annual report and NOI have been posted to the Village's website
 2. A pollution prevention flyer will be posted to the Village's website, will be printed in the Sauk Talk, and has been posted to the bulletin board at the Village Hall
- b) REMINDER: Do not dump oil, paint or other chemicals down the sewer
- c) REMINDER: Clean up after your dogs in your yard and parks

2) Public Involvement and Participation

- a) This Public Hearing is an example of this
- b) Village welcomes public involvement; call Public Works if you notice any spills in the Village's streams
- c) Sauk Village hosted a Community Clean Up Day on May 17, 2014 to clean up around Village buildings and public right-of-ways

3) Illicit Discharge Detection and Elimination (IDDE)

- a) The Village has an ordinance that it uses to address illegal discharges to Village waterways
- b) Public Works has identified all outfalls within the Village
- c) The Village maintains an up-to-date sewer atlas that indicates all the outfalls
- d) The Village's goal is to inspect 20% of the outfalls on an annual basis

4) Control of Construction Site Storm Water Runoff

- a) The Village has an erosion control ordinance in place to address construction site storm water runoff
- b) Developers are required to provide a Storm Water Pollution Prevention Plan (SWPPP), which addresses how to prevent erosion at construction sites
- c) Developers are required to inspect their sites weekly during construction and after rain events

5) Post-Construction Storm Water Management

- a) The Village has a post-construction ordinance in place to address long term control of storm water pollution from newly developed sites
- b) Final inspections are required before the developer can leave the site
- c) Detention is required for all developments in Village
- d) Detention ponds and other post-construction measures filter out sediments prior to the sediments being released to the environment

6) Pollution Prevention/Good Housekeeping

- a) The Village conducts street sweeping, branch pick up, and leaf collection periodically throughout the year
- b) The Village's goal is to clean 20% of the Village's catch basins per year to prevent the collected material from reaching the Village's waterways
- c) The Village requests the public's help in inspecting inlets and catch basins and keeping them clear of debris
- d) Robinson Engineering will develop a municipal operations program for storm water Best Management Practices

III. Annual Activities Moving Forward

- An annual report is made to the IEPA each year by June 1
- Ordinances and the storm sewer atlas are reviewed yearly
- Public Works will conduct in-house training for good housekeeping practices
- Public Works will mow and remove litter from detention ponds
- Robinson Engineering will ensure that developments comply with storm water ordinances and floodplain regulations

3. Public Comment

Joe Wiszowaty asked if an inspection log is kept by the village and inquired about maintenance of the detention ponds. Jim Czarnik stated Public Works Director Kevin Weller keeps the inspection log and would be the person to answer the question about maintenance of the detention ponds.

4. Adjournment

Mayor Pro Tem Williams asked for a motion to adjourn. The motion to adjourn was made by Trustee Poskin and seconded by Trustee Washington.

All Ayes

Meeting was adjourned at 6:08 pm.

Mayor Pro Tem Rosie L. Williams

Village Clerk Debra L. Williams
